

Annual Management Report of Fund Performance

For the period ended December 31, 2019

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

For the period ended December 31, 2019

Canadian Equity Fund

NBI Jarislowsky Fraser Select Canadian Equity Fund

Notes on forward-looking statements

This report may contain forward-looking statements concerning the Fund, its future performance, its strategies or prospects or about future events or circumstances. Such forward-looking statements include, among others, statements with respect to our beliefs, plans, expectations, estimates and intentions. The use of the expressions "foresee", "intend", "anticipate", "estimate", "assume", "believe" and "expect" and other similar terms and expressions indicate forward-looking statements.

By their very nature, forward-looking statements imply the use of assumptions and necessarily involve inherent risks and uncertainties. Consequently, there is a significant risk that the explicit or implicit forecasts contained in these forward-looking statements might not materialize or that they may not prove to be accurate in the future. A number of factors could cause future results, conditions or events to differ materially from the objectives, expectations, estimates or intentions expressed in such forward-looking statements. Such differences might be caused by several factors, including changes in Canadian and worldwide economic and financial conditions (in particular interest and exchange rates and the prices of other financial instruments), market trends, new regulatory provisions, competition, changes in technology and the potential impact of conflicts and other international events.

The foregoing list of factors is not exhaustive. Before making any investment decision, investors and others relying on our forward-looking statements should carefully consider the foregoing factors and other factors. We caution readers not to rely unduly on these forward-looking statements. We assume no obligation to update forward-looking statements in the light of new information, future events or other circumstances unless applicable legislation so provides.

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-888-270-3941 or 514-871-2082, by writing to us at National Bank Investments Advisory Service, 500, Place d'Armes, 12th floor, Montreal, Quebec, H2Y 2W3, by visiting our website at www.nbinvestments.ca, by visiting SEDAR's website at www.sedar.com, or by contacting your advisor. You may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

The NBI Jarislowsky Fraser Select Canadian Equity Fund's investment objective is to achieve long-term capital growth. The Fund invests directly or indirectly in a portfolio comprised mainly of equity securities of large-capitalization Canadian issuers.

The portfolio manager analyzes stocks through a valuation approach of "growth at a reasonable price" with a long-term investment horizon. Based on fundamental analysis, the portfolio manager identifies companies with above average growth prospects and below average risk. Securities held in the portfolio are common and/or preferred shares of large-capitalization companies that are industry leaders, have strong management, a good earnings track record and reasonable financial leverage.

Risks

The Fund's risk level was modified from "medium" to "low to medium" during the year. This change aims to more accurately reflect the Fund's actual risk level.

Results of Operations

For the twelve-month period ended December 31, 2019, the NBI Jarislowsky Fraser Select Canadian Equity Fund's Advisor Series units returned 19.11% compared to 22.88% for the Fund's benchmark, the S&P/TSX Capped Composite Index (CAD). Unlike the benchmark, the Fund's performance is calculated after fees and expenses. Please see the *Past Performance* section for the returns of all of the Fund's series, which may vary mainly because of fees and expenses.

Certain series of the Fund, as applicable, may make distributions at a rate determined by the manager. This rate may change from time to time. If the aggregate amount of distributions in such series exceeds the portion of net income and net realized capital gains allocated to such series, the excess will constitute a return of capital. The manager does not believe that the return of capital distributions made by such series of the Fund have a meaningful impact on the Fund's ability to implement its investment strategy or to fulfill its investment objective.

The Fund's net asset value rose by 51.41% over the period, from \$91.83 million as at December 31, 2018 to \$139.04 million as at December 31, 2019.

The increase stemmed mainly from unit purchases by investors in the Fund and market fluctuations.

Looking back in 2019, the year started under a dark cloud and much volatility, with fears that interest rates had risen too far, too fast, and number of risks needing to be addressed politically, including U.S.-China trade tensions, the United States-Mexico-Canada Agreement ("USMCA") and Brexit, among others. The year finished with movement on all three fronts, as well as lower interest rates in most of the world's major economies, which provided the stimulus for financial markets to generate strong returns for the fourth quarter and for 2019 as a whole.

Encouraged by the three U.S. Federal Reserve rate cuts and a strong domestic economy, 2019 was a strong year for the U.S. equity market. All sectors performed well as the worst performance was in the Energy sector which nevertheless gained 11.8%. The Information Technology and the Telecommunication Services sectors were the big winners this year as they gained 50.3% and 32.7% respectively. The S&P500, which gained 31.5% (USD) and slightly over 25% (CAD) throughout the year, reached several all-time highs during the year, the last of which was on December 27th, boosted by growing optimism over an initial U.S.-China trade deal.

Much like markets further west, 2019 was a good year for international markets where all sectors had a positive performance, and the worst performance came from the Energy sector gaining 8.6%. Businesses represented in the MSCI EAFE index gained 22.8% in 2019. Like the rest of the world's markets, the Information Technology sector was the main contributor to the index performance, gaining 38.1%. Italy was the best performer of the index, gaining 33.8% throughout the year, and Hong Kong underperformed, gaining 13% despite being the best performing index in December by gaining over 7% thanks to an upbeat mood on the trade front.

Along with most of the rest of the world, the Canadian equity market performed very well in 2019. The S&P/TSX index, which gained 22.8% throughout the year, reached several all-time highs during the period, lastly on December 20th, boosted by upbeat economic data from China amid growing optimism over an initial U.S.-China trade deal. The index was mainly driven by the Information Technology sector increasing by 64.1% and Utilities names gaining 37.5%. The only detractors this year was the Health Care sector losing 10.9% thanks to the unimpressive performance of names in the cannabis sector.

In this context, the Fund managed to post positive returns but lagged its benchmark. The Fund's overweight exposure to the Information Technology and positions in the Financials sector (especially Manulife and Brookfield Asset Management) added value. Conversely, stock selection in Materials, Information Technology and Consumer Discretionary sectors were the main detractors to performance over the year.

Recent Developments

During the year, the portfolio manager initiated new positions in Altus Group, WSP Global, Premium Brands, Winpak Ltd., Colgate-Palmolive, Mastercard Inc., Boston Scientific, UnitedHealth Group, and Atlas Copco. Compared to the index, the Fund is underweight Communication Services, Energy, Materials and Utilities while being overweight in Information Technology, Consumer Staples and Industrials.

In the longer term, his expectations continue to be limited by the secular headwinds. Developed economies are heavily indebted, have underinvested in productive capacity, and are facing demographic headwinds due to an aging population base. In sum, the long-term trend rate of economic growth will continue to be modest even without the added uncertainty from protracted trade wars and Brexit negotiations. Central bank intervention will continue to be needed in the absence of truly significant fiscal policy stimulus. In this context, the portfolio manager expects more uncertainty in the increasingly multi-polar geopolitical world which would only be magnified by a potential second term for President Trump. His re-election would allow him to put his "America First" trade and foreign relations policies into overdrive.

On April 30, 2019, the Fund's independent review committee (the "IRC") was reduced to three members when André Godbout resigned as an IRC member. On May 22, 2019, the Fund's IRC was increased to five members when Norman Turnbull and Robert Martin were appointed as IRC members.

Related Party Transactions

National Bank of Canada ("the Bank") and its affiliated companies' roles and responsibilities related to the Fund are as follows:

Fund Manager

The Fund is managed by National Bank Investments Inc. ("NBII"), which is a wholly-owned subsidiary of the Bank. Therefore, NBII provides or ensures the provision of all general management and administrative services required by the Fund's current operations, including investment consulting, the arrangement of brokerage contracts for the purchase and sale of the investment portfolio, bookkeeping and other administrative services required by the Fund.

The Fund reimbursed NBI for operating expenses, at cost, incurred in administering the Fund, including trustee, recordkeeping, custodial, legal, audit, investor servicing, and securityholder reporting fees.

As described under the heading *Management Fees*, the Fund pays annual management fees to NBI as consideration for its services.

Distribution and Dealer Compensation

Fund securities are offered by National Bank Direct Brokerage (a division of National Bank Financial Inc., an indirect wholly owned subsidiary of the Bank), CABN Investments (a division of NBII), National Bank Financial Inc. and other affiliated entities. Each month, brokers receive a commission representing a percentage of the average daily value of the securities held by their clients.

Brokerage Fees

The Fund may pay broker's commissions at market rates to a corporation affiliated with NBII. The brokerage fees paid by the Fund for the period are as follows:

	Period ended December 31, 2019
Total brokerage fees	28,294.88
Brokerage fees paid to National Bank Financial	3,123.58

Holdings

As at December 31, 2019, National Bank Investments Inc. held 364.55 Fund securities for a value of \$4,042.24, which represented close to 0.0029% of the net asset value of the Fund at that date. Transactions between National Bank Investments Inc. and the Fund were carried out in the normal course of business and at the Fund's net asset value as at the transaction date.

Registered Plan Trust Services

NTC receives a fixed amount per registered account for services provided as trustee for registered plans.

Administrative and Operating Services

The provision of certain services was delegated by the Fund manager, NBII, to National Bank Trust Inc. ("NBT"), a wholly-owned indirect subsidiary of the Bank. These include accounting, reporting and portfolio valuation services. The fees incurred for these services are paid to NBT by the Fund manager.

Management Fees

The Fund pays annual management fees to the Fund manager for its management services. The fees are calculated based on a percentage of the Fund's daily net asset value before applicable taxes and are paid on a monthly basis. A portion of the management fees paid by the Fund covers maximum annual trailer fees and sales commissions paid to brokers. The remainder of the management fees primarily covers investment management and general administration services. The breakdown of major services provided in consideration of the management fees, expressed as an approximate percentage of the management fees is as follows:

Series	Management Fees	Distribution	Others [†]
Advisor Series and Series T5*			
Front-end load	1.75%	57.14%	42.86%
Low load - 1 to 3 years	1.75%	28.57%	71.43%
Low load - 4 years and more	1.75%	57.14%	42.86%
Series E	0.75%	-	100.00%
Series F and Series F5	0.75%	-	100.00%

^(†) Includes all costs related to management, investment advisory services, general administration and profit.

^(*) Excluding sales commissions paid on the Advisor Series and Series T5 with the low sales charge option, which are not included in the management fees.

Past Performance

The performance of each series of the Fund presented below are calculated as of December 31 of each year. They assume that all distributions made in the periods shown were reinvested in additional securities and does not take into account sales, redemption charges, distributions, or optional charges that would have reduced returns. Past performance of a series of the Fund does not necessarily indicate how it will perform in the future.

Annual Returns

The bar charts indicate the performance for each the Fund's series in existence greater than one year during the years shown, and illustrate how the performance has changed from year to year. They show, in percentage terms, how much an investment made on January 1 (or made commencing from the start of the series) would have grown or decreased by December 31 of that year, or by June 30, as applicable.

⁽¹⁾ Returns for the period of October 7, 2010 (commencement of operations) to December 31, 2010.

⁽²⁾ Returns for the period of September 30, 2014 (commencement of operations) to December 31, 2014.

Annual Compounded Performance

The following table shows the Fund's annual compound returns for each series in existence greater than one year and for each of the periods ended on December 31, 2019, compared with the following benchmark:

S&P/TSX Capped Composite Index (CAD)

⁽¹⁾ This information is derived from the Fund's Annual Audited Financial Statements. The net assets per unit presented in the financial statements might differ from the net asset value calculated for fund pricing purposes. The differences are explained in the notes to the financial statements.

⁽²⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase or decrease from operations is based on the average number of units outstanding over the accounting period. For the Advisor Series, the detailed calculation of the total Increase (Decrease) from Operations as at December 31, 2015 has been adjusted to reflect the proper allocation between the following items: Total revenue, Total expenses, Realized gain (losses) and/or Unrealized gain (losses). It is a non-material correction related to a programming error in the ratio calculation.

⁽³⁾ Distributions were paid in cash or reinvested in additional units of the Fund, or both. For Series F and E, the distribution from dividends and from capital gains as at December 31, 2014 have been adjusted to reflect a non-material correction related to a transposition errors.

⁽⁴⁾ The net assets are calculated in accordance with IFRS.

⁽⁵⁾ This information is provided as at the last day of the accounting period shown.

⁽⁶⁾ Management expense ratio is based on total expenses including sales taxes for the accounting period indicated (excluding commission, other portfolio transaction costs and withholding taxes) and is expressed as an annualized percentage of daily average net value during the accounting period.

⁽⁷⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the accounting period. The trading expense ratio includes, if necessary, the trading expenses from its underlying funds, as described in Article 15.2 of Regulation 81-106. Since calculating an average daily allocation of the trading expenses would take considerable effort, an average monthly allocation has been used instead for the accounting periods prior to 2016.

⁽⁸⁾ The Fund's portfolio turnover rate indicates how actively the Fund portfolio's manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the accounting period. The higher a Fund's portfolio turnover rate in an accounting period, the greater the trading costs payable by the Fund in the accounting period, and the greater the chance of an investor receiving taxable capital gains in the accounting period. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

Summary of Investment Portfolio

As of December 31, 2019

Portfolio Top Holdings

	% of Net Asset Value
Toronto-Dominion Bank	5.4
